

Field-ready safety leadership for demanding projects.

CHST-led support | High-risk construction | Nationwide project mobility

COMPANY OVERVIEW

LykkePro LLC provides CHST-led construction safety leadership and supplemental EHS support for general contractors, specialty trades, manufacturers, and project owners. We help project teams strengthen field execution, identify risk, support regulatory compliance, and protect personnel in technically demanding environments.

CORE CAPABILITIES

- Construction safety management and field oversight
- Site safety audits, inspections, and corrective-action follow-up
- JHA/JSA, pre-task planning, and high-risk activity review
- OSHA 1926 and 1910 compliance support
- Incident investigation and root-cause analysis
- EHS program development, orientations, and workforce training
- Supplemental project safety coverage and site assignments

RELEVANT EXPERIENCE

LykkePro is led by Amy Lykkegaard, CHST, whose experience includes mission-critical data center construction, large-scale commercial and industrial projects, complex manufacturing, and life-sciences environments. Her background includes oversight of high-risk electrical and mechanical activities, contractor coordination, regulatory compliance, occupational health, and practical field-level risk reduction.

WHY LYKKEPRO

- Field-first leadership that connects technical requirements with executable site practices
- CHST credential supported by a B.A.S. in Environmental Engineering
- Experience integrating with GCs, project teams, and specialty contractors
- Responsive, project-based support with nationwide mobility
- Veteran- and woman-owned leadership

FLEXIBLE PROJECT SUPPORT

Short-term coverage | Project-duration assignments
Ramp-up and surge support | Owner / GC safety representation
